The screenshot shows the Unity Asset Store interface for the publisher Unity Technologies. The browser address bar displays `assetstore.unity.com/publishers/1`. The page header includes the Unity Asset Store logo, a search bar, and navigation links for 3D, 2D, Add-Ons, Audio, Essentials, Templates, Tools, VFX, and Sale. A 'Sell Assets' link is also present. Below the header, three statistics are shown: 'Over 11,000 five-star assets', 'Rated by 85,000+ customers', and 'Supported by 100,000+ forum members'. The main content area features a large Unity logo on a colorful, abstract background. To the right of the logo, a welcome message states: 'Welcome to Unity's own collection of assets. You'll find a variety of complete projects and tutorials, models, environments, props and editor extensions. Keep up to date on the latest tutorials and projects from Unity on our Learn pages.' Below this message is a profile card for Unity Technologies, displaying the Unity logo, the name 'Unity Technologies', the website 'unity3d.com', the email 'support@unity3d.com', and social media icons for Facebook, Instagram, Twitter, and YouTube. A 'Report this profile' link is located below the profile card. At the bottom of the page, there are tabs for 'Assets', 'Lists', and 'About'. The 'Assets' tab is selected, and the page is sorted by 'Popularity'. The 'View Result' dropdown shows '24'. Below the sorting options, there are four asset thumbnails: a 3D model of a chair, a 3D model of a mountain, a 3D model of a house, and a 3D model of a robot. At the bottom of the page, there is a 'Compare assets' section with a '0/2' indicator and a 'Select an asset to compare' button.

How to walk backwards and strafe movement?
Is it possible to do this without changing the script its self?
What do I do?
